27-28 April 2017

The 2nd Young Researchers Workshop on Biomaterials and Applications (bioMAPP17) is a scientific meeting focused on biomaterials and their applications in imaging, therapy and sensing.

The conference program will include:

- **Biofunctional Materials**
- **Biosurfaces**
- **Molecular Imaging.**
- **Therapy and Diagnostics**
- **Sensing and Catalysis**

The workshop offers an excellent opportunity for young scholars (advanced doctoral students and recently appointed post-docs) to present their research and gain experience in academic conferencing, for networking and exchange of ideas.

Submission deadline: 01 March 2017
